

NEWS RELEASE

Victoria, BC; July 4, 2004

INNSOURCE SOLUTIONS PARTNERS WITH ONRES SYSTEMS TO PROVIDE A WEB RESERVATION SOLUTION FOR USERS OF THE ICS2000™ PROPERTY MANAGEMENT SYSTEM.

InnSource Solutions Inc. is pleased to announce its recent affiliation with OnRes Systems Inc., makers of the AccomPro online reservations software. AccomPro makes it easy to take real-time reservations from your website, and with the optional interface to ICS2000, reservations will be delivered directly into ICS2000 property management system.

“AccomPro is easy to use, cost effective and can integrate seamlessly into any website,” commented Ben Larsen, Director of InnSource Solutions Inc. “ICS2000 users will benefit from the integration to AccomPro with the addition of our real-time interface. “The interface to AccomPro will accept reservations directly from AccomPro in real-time and adjust ICS2000 inventory accordingly,” added Larsen. “We’re very excited to offer this complete solution to our clients.”

About OnRes Systems Inc.

OnRes Systems is an application service provider and software development firm with the purpose of delivering inventory management and e-commerce technology to vendors in the travel industry. Drawing from expertise in software development, the accommodation industry, Internet marketing and sales, OnRes has created a software product that reduces overall administration time, increases the professional look of a site and increases online sales.
